8667729234

MGR NAGAR, Chennai, Tamil Nadu, 600006, India

I have a strong foundation in both front-end and back-end development, with expertise in technologies such as React, Node.js, Express.js, and MongoDB. My experience includes building responsive user interfaces, developing RESTful APIs, implementing secure user authentication, handling CRUD operations, and ensuring seamless front-end and back-end integration.

Work Experience

Full Stack Developer

Aug 2024 - Present

Freelance Company | Coimbatore

Developed full-stack web applications using MongoDB, Express.js, React.js, and Node.js.

Build RESTful APIs and integrated with frontend using Axios/Fetch.

Implemented user authentication (JWT/Google OAuth) and CRUD operations.

Deployed apps using Render.

Collaborated using Git, managed tasks on Trello.

Web Developer

Apr 2015 - Oct 2017

DoClick Solutions | Coimbatore

Developed and maintained scalable web applications using Java Script improving application performance.

Developed small-scale e-commerce web applications using JavaScript for both frontend and backend.

Designed interactive UIs using HTML, CSS, JavaScript.

Maintained and updated existing websites, ensuring compatibility across different browsers and devices.

Projects

E-commerce Website

Apr 2024 - Apr 2024

E-commerce website developed using the MERN stack. Users can add products to their carts, make payments, and manage their orders. Data is stored in a MongoDB database. Authentication is managed using JWT, and session management is implemented using cookies.
