chennai

I'm a skilled Full Stack developer (MongoDB, Express.js, React, Node.js) with a passion for building dynamic, scalable, and user-friendly web applications. With hands-on experience in developing full-stack applications from scratch, I specialize in transforming ideas into high-performance digital solutions. My expertise lies in developing RESTful APIs, implementing secure user authentication, handling CRUD operations, and ensuring seamless front-end and back-end integration.

Work Experience

Web Developer
Jan 2015 - Dec 2017

Doclick Solutions | Coimbatore, India

- Developed and maintained scalable web applications using Java Script improving application performance.
- Developed small-scale e-commerce web applications using JavaScript for both frontend and backend.
- Designed interactive UIs using HTML, CSS, JavaScript.
- Maintained and updated existing websites, ensuring compatibility across different browsers and devices.

Projects

E-commerce web application
Oct 2024 - Oct 2024

E-commerce website built with MERN stack. users can add products to cart, make payments, and manage their orders. store data in MongoDB database. authentication is handled using JWT. session management is done using cookies.
